## Detailed Directions and Instructions

### Preheat the Oven

Begin by preheating your oven to 400°F (200°C). This will ensure that the baby potatoes roast evenly and develop a delicious crispy exterior.

### Toss the Potatoes

In a large mixing bowl, toss the halved baby potatoes with 2 tablespoons of olive oil, salt, and pepper. Ensure every piece is well coated for optimal flavor and texture.

### Roast the Potatoes

Spread the prepared potatoes in a single layer on a baking sheet. Roast them in the preheated oven for 20-25 minutes, or until they are golden brown and tender to the fork. Halfway through roasting, give them a gentle toss to promote even cooking.

### Cook the Steak

While the potatoes are roasting, heat 2 tablespoons of olive oil in a large skillet over medium-high heat. Add the bite-sized steak pieces to the skillet without overcrowding the pan. Cook for about 5-7 minutes, browning the steak on all sides and achieving your desired level of doneness. Once browned, remove the steak from the skillet and set it aside.

### Make the Garlic Butter Sauce

In the same skillet where you cooked the steak, reduce the heat to medium and add the remaining 2 tablespoons of unsalted butter. Melting it gently, add the minced garlic and let it cook for about 1 minute until fragrant, ensuring not to burn it.

### Add Herbs

Stir in the dried thyme, dried rosemary, and dried oregano into the garlic butter mixture. The combination of these herbs will infuse a wonderful aroma that complements the richness of the steak.

### Combine Steak and Garlic Butter

Return the cooked steak to the skillet, tossing it in the fragrant garlic butter sauce. Cook for

an additional 2-3 minutes, allowing the steak to absorb the wonderful flavors of the garlic and herbs.

### **Finish with Potatoes**

Once the potatoes are perfectly roasted, remove them from the oven and add them to the skillet with the steak. Gently toss everything together until the potatoes are well coated in the garlic butter sauce, ensuring they soak up all the delicious flavors.

### **Melt Additional Butter**

To enhance richness, melt the remaining 2 tablespoons of unsalted butter over the steak and potato mixture, stirring gently to coat everything evenly.

### **Garnish and Serve**

Serve the garlic butter steak and potatoes hot. For an inviting touch, garnish with fresh chopped parsley to add color and a bit of freshness to your dish.

### **Notes**

- For added flavor, consider marinating the steak in balsamic vinegar or soy sauce for a few hours before cooking.
- Feel free to adjust the amount of garlic based on your preference; more garlic can add extra depth to the dish.
- Use a mix of herbs according to your taste; fresh herbs can be a great addition if available.

### **Cook Techniques**

- Roasting: This method provides the potatoes with a crispy exterior while maintaining a fluffy inside, ideal for melding flavors.
- Searing: Cooking the steak over high heat ensures a nice crust forms while keeping the interior tender and juicy.
- Deglazing: Using the residual fat and browned bits in the skillet to flavor the sauce enhances the dish's overall richness.

### **FAQ**

**Can I use beef cuts other than sirloin for this dish?**

Yes, you can use other cuts such as ribeye, flank steak, or even tenderloin, depending on your preference and availability.

**What side dishes pair well with Garlic Butter Steak and Potatoes?**

This dish pairs wonderfully with a simple salad, steamed vegetables, or even a crusty piece of bread to soak up the delicious garlic butter sauce.

**Can leftovers be reheated, and how should they be stored?**

Leftovers can be stored in an airtight container in the refrigerator for up to three days. When reheating, it's best to do so on the stove over low heat to preserve texture.
