Step 4: Chill the Dough

Cover the dough with plastic wrap and refrigerate for at least one hour. This helps to firm up the dough, making it easier to roll out.

Step 5: Preheat the Oven

Preheat your oven to 350°F (175°C). Line baking sheets with parchment paper to prevent sticking.

Step 6: Roll and Cut the Cookies

On a lightly floured surface, roll out the chilled dough to about 1/4 inch thickness. Use cookie cutters to cut out shapes and place them on the prepared baking sheets.

Step 7: Bake the Cookies

Bake the cookies in the preheated oven for 8-10 minutes, or until the edges are lightly golden. Keep an eye on them to avoid overbaking.

Step 8: Cool the Cookies

Once baked, remove the cookies from the oven and allow them to cool on the baking sheets for a few minutes before transferring them to a wire rack to cool completely.

Step 9: Decorate the Cookies

Once the cookies are completely cool, decorate them using icing, sprinkles, or any desired toppings.

Notes

Note 1: Dough Consistency

If the dough is too soft and sticky, you can add a little more flour until it reaches the right consistency for rolling.

Note 2: Storage

Store the baked cookies in an airtight container at room temperature for up to a week. They can also be frozen for longer storage.

Note 3: Variations

Feel free to experiment with different extracts or add-ins such as chocolate chips, dried fruit, or nuts to customize your cookies.
